Why then have no bodies ever been found? Could Bigfoot be something other than an undiscovered animal species? You will hear about some of the strangest Bigfoot incidents ever documented in this illustrated lecture. Stan will also present startling details of Bigfoots and UFOs seen together, Bigfoot tracks that suddenly vanish from trails, and government interest in these episodes.

Stan Gordon is the author of three books including his latest *Astonishing Encounters*, and is the producer of the award winning UFO video documentary, *Kecksburg The Untold Story*. Registration is required. Due to high demand, **we cannot guarantee a seat to anyone who has not registered in advance. Please register at Caldwell Memorial Library by phoning 724-694-5765.**
